Bladder.

And as a safe and gentle medicine. Infants, Children,
Delicate Females, and for the sickness of Pregnancy, Dinneford's Magnesia is indispensable.

Sold by all Druggists and Storekeepers.

The News.

The telegraphic news which we have been enabled to place before our readers yesterday and to-day possesses more than ordinary interest. For the first time since her great bereavement in 1861 our beloved Queen has opened Parliament in person—an event of no common interest to the people of the great metropolis—to the British people in the uttermost ends of the earth. And it is truly a felicitous circumstance, one calling for national gratitude to Almighty God, that upon the occasion of her first return to the greatest state duty imposed upon the British Sovereign, the Queen should be enabled to congratulate Parliament upon the peaceful relations existing with other nations, at a time when two of the Great Powers of Europe have been engaged in one of the most terrible and exhaustive conflicts the world has ever witnessed, and when but few crowned heads rest peacefully. But it is in the New World, at Washington, that events are evolving which most concern us as a nation, and especially as the new Empire of British America. It will have been observed that a proposition emanating from the British Government to refer the fishery and other questions between the United States and the Dominion of Canada to a Joint High Commission, to be appointed by both Governments and to sit at Washington, has been met by a counter proposition, breathing an equally friendly spirit on the part of the United States Government, suggesting that not alone should those questions affecting the relations between the United States and the Dominion of Canada be referred to such a Commission, but that those differences which arose during the rebellion, generally known as the Alabama Claims, should also be referred, as the removal of these would also be essential to the restoration of cordial and amicable relations between the two Governments. It will also be observed that to this proposition Her Majesty's Government has acceded in the most prompt and graceful way. Not the least pleasing feature of the correspondence carried on by the representatives of the two Governments is the striking and happy contrast between the spirit exhibited on this occasion and that of former occasions, on the part of the United States, a change which augurs well for the work of the Commission. Take, for instance, President Grant's late Message, or Senator Sumner's belligerent pronouncement and what a contrast! It will assist the reader to understand the precise attitude of the two Governments to bear in mind the position in which the Alabama question was left when former efforts at a settlement were abandoned. It will be remembered that, in the hands of Reverdy Johnson, late American Minister to the Court of St James, negotiations assumed a very practical form and at one time gave fair promise of speedy adjustment. The American Minister pressed point after point, and the British Minister made concession after concession, until the former expressed himself satisfied, and the latter declared that his Government had, in a spirit of conciliation and an earnest desire for peace, arrived at that point beyond which a sense of right and national honor forbade it to proceed. Thus a basis was negotiated upon which it was hoped a satisfactory adjustment of the difficulty might be attained. But it was rejected by Congress, and so the whole matter lapsed, leaving the question as far from settlement as ever. Under these circumstances, it was not for the British Government to renew negotiations, and so it was announced that in any such renewal the initial step must be taken by the United States Government. When, therefore, a proposition to refer the fishing and other questions between the United States and Canada to a Joint Commission was made by Minister Thornton, on the 26th ult, that the proposition did not include the Alabama claims may be attributed to the consciousness of the British Government that the fate of previous negotiations left it in no position to make a proposition touching that question. Yet the proposition which it did make afforded a most fitting opportunity to the American Government to take the step which it alone could take; and the manner in which that opportunity has been improved shows that, notwithstanding all the bluster which the question has unhappily evoked on this side of the Atlantic, the United States Government is not indisposed to an amicable adjustment of all outstanding differences and a resumption of those friendly relations which ought to exist between the two great Anglo-Saxon Powers. That the British Government has been all along sincere in its professions of a desire to have these differences removed, and that it was like a coy girl, only waiting to be asked, may fairly be inferred from the reception with which the proposition for the larger reference met at the hands of the British Government. And now all good and patriotic men in both countries will rejoice that matters have taken such a happy and practical turn. It will be seen that the British Government has appointed two Canadians on the Commission, the Premier and the ex-Minister of Finance of the Dominion. This was to be expected from the nature of the subjects to be referred to the Commission, and the interests of the Dominion will be safe and well guarded in the hands of Sir John A. Macdonald and Sir John Rose. Amongst the subjects thus to be submitted for settlement will doubtless be the San Juan dispute, a matter of the most vital importance to the Dominion of Canada, in view of its extension to the Pacific, and especially important to this colony. It will, therefore, be reassuring to the people of British Columbia to know that their interests in this matter

will be in such able hands. The notice of motion, given by the senior member for this city, touching San Juan Island would appear to be most opportune, as it doubtless has reference to the circumstance of such a Commission being about to assemble.

LOWE, STAHLSCHEMIDT & CO,

COMMISSION MERCHANTS,

Offer for Sale the following Goods,

Saturday Morning, Feb 11, 1871.

Legislative Council.

THURSDAY, Feb 10th, 1871.

Council met at 1:30 p.m. Present—The hon Speaker, hon Attorney-General, hon Collector of Customs, hon Dr Helmecken, hon Dr Carrall, Mr Alston, Mr Humphreys, Mr Nelson, Mr Nathan, Mr Skinner, Mr Cornwall, Mr DeCosmos, Mr Pemberton, and Mr Banister.

Minutes of the last meeting read and confirmed.

SUPPLEMENTARY ESTIMATES.

A communication was received from His Excellency the Governor, placing before the House the Supplementary Estimates for 1871, amounting to \$45,969 07, of which His Excellency remarks that there is no item therein requiring special notice.

NOTICES.

Mr Nathan gave notice that on Wednesday next he would move to take into consideration the petition of the Mayor and City Council.

Hon Dr Helmecken—To move at next sitting of Council a resolution relating to the unsettled condition of San Juan.

PALLADIUM.

Mr Humphreys rose to a question of privilege. He did not want to interfere with the liberty of the press, but he did not like to be maliciously misrepresented as he had been this morning in the Colonist newspaper, in which he was reported to have said something about dragging the carriage out and hanging it before the public gaze and gibbeting the mover of the infamous measure. He distinctly denied that he had made use of such language and would appeal to the House and hoped this would be the last time that he would be compelled to trouble this House with such a matter. He then went into an explanation of what he did say, which the reporter could not well understand.

ORDERS OF THE DAY.

Mr Humphreys moved that a respectful address be presented to His Excellency the Governor praying that compensation be given to all Postmasters in the colony who are now un-munited.

MECHANICS' INSTITUTE BILL was read a third time and passed.

CANADIAN PACIFIC RAILWAY.

Hon Dr Helmecken moved his resolution (published in *extenso* in the Colonist of the 8th inst) urging upon the Canadian Government the advisability of making provision for connecting Victoria and Esquimaux with the proposed railway from the Pacific to the Rocky Mountains, in case neither of those places shall be made the starting point or principal station of such railway. The hon mover said he did not intend to advance any argument as to which of the various points mentioned was the best and probable terminus of the road on this coast, but he looked altogether upon the union with Canada in a broad and general sense, and he wanted Vancouver Island to be brought into connection by the construction of the railway. We must regard the road in a manner not only as uniting British Columbia with Canada, but also as uniting the parts of the colony. The measure which he presented would be a general good; there was nothing local in it. Should the Northern Pacific Railway be completed and terminate near us, unless the Canadian Pacific road extended to this island a large part of our trade would find its way in the direction of the former road. He held also that in order to secure the loyalty of the people of Vancouver Island the railroad should unite the whole colony. No person from the mainland should object to what was asked by the resolution—the rejection of which would give great dissatisfaction to the people of Vancouver Island. The measure would not only maintain the loyalty of the people of the island, but it would make the people of the colony one. There was much said about its being a gigantic undertaking and some called it imaginary, but he looked upon the railroad as an accomplished fact. He wanted it pointed out to the Canadian Government how great would be the advantage to the Dominion and the colony to have the road connect the island with the mainland. The hon mover's remarks throughout were of the most clear and convincing character. Mr Nathan seconded and ably supported the resolution.

Mr Humphreys regretted that he must be obliged to oppose the resolution. He thought the measure premature, as it might injure the machinery of Confederation. His opinion had all along coincided with the Governor's, and he feared if we made any attempt to fix the terms it might jeopardize the terms of union. He thought legislation now out of place. This resolution could do no good and might do a great deal of harm.

Hon Dr Helmecken explained that it would in no way affect or jeopardize the terms of union.

Mr Humphreys—If the hon Attorney General says such is the case I will withdraw my opposition.

Hon Attorney General assured the members for Lillooet that the resolution could in no way affect the terms.

Mr Humphreys asked if this was not an endorsement of the action of Victorians at their public meeting?

Dr Helmecken—No, no.

Mr Humphreys—Then I will not oppose.

Mr Nelson said he would oppose the resolution, but had it come up in the Council before there had been any action taken by the people of Victoria he would not object to it. He thought it preposterous to ask for the railway to be made to accommodate a little town of 3,000 inhabitants. He thought the matter should rest on its own merits and if the advantages of the road coming on the island were as great as represented the road would be brought here. He looked upon the motion as silly, as there had been so many of this kind before the House.

Mr DeCosmos said if he thought the resolution would in any way interfere with or endanger the terms he would not vote for it; but if he thought not he would vote for it.

Mr Banister said he did not think the resolution went far enough; it ought to ask that the work on the railroad shall be commenced at both ends at once.

Several members—That is a condition of the terms.

Mr Banister—Well, it ought to commence on Vancouver Island. He would have the work commenced at Esquimaux immediately [Laughter.]

Mr Alston supported the resolution.

Mr DeCosmos said this was a question that should have been settled at Ottawa. If it proved impossible to get the road on the island the people would do one of two things—either leave for the mainland or agitate Annexation to the United States. If the road does not come here Vancouver Island will be the Ireland of the Dominion. It

was a mistake that this question was not settled at Ottawa.

Mr Skinner supported the amendment. Some discussion arose as to whether the question of bringing the road to Vancouver Island had been brought to the notice of the Canadian Cabinet. Hon Dr Carrall said it was.

The resolution was carried, Mr Nelson in the negative.

SPECIAL LIQUOR TAX.

The rules were suspended to enable Mr Nathan to introduce a resolution for the repeal of 50 cents per gallon duty on spirits.

The hon Attorney General stated that the matter was under the consideration of the Government and he thought the Dominion Government would consent to the removal of the tax on the 1st of July next.

Adjourned till Tuesday next at 1 o'clock p.m.

SERIOUS CUTTING AFFRAY—Two MEN STABBED.

Yesterday at a Chinese gambling house on Cormorant street, two of the gamblers named Ah Son and Ah Sim quarrelled over a game, when both drew knives and began to cut and carve each other. The Chinese present interfered, but not before Ah Son had received a cut on the left arm and a deep gash in the abdomen and Ah Sim a deep cut on the thigh. The blood flowed freely from the wounds and when Sergt McMillan of the Police entered the house he found the floor and tables covered with gore and the two men so weak from loss of blood that they had to be conveyed in a wagon to the Police Barracks where they remained last night in a very dangerous state. A clasp-knife, the large blade of which was covered with blood, was picked up in the house and had evidently been used by one of the combatants. Ah Sim was formerly cook at Government House, and Ah Son, who is a professional gambler, has lately peddled vegetables about town. Both men are grievously hurt, and fear for the recovery of Ah Sim are entertained.

CARRIAGE.—Barnard's express brings us files of the *Sentinel* to the 28th ult, but the missing news has been so fully anticipated by telegraph that there is little or nothing to add. The following is a condensed summary of general intelligence: Commissioner Ball has instructed Mr Brown to proceed to Quessenois to learn the art of telegraphy, preparatory to taking charge of the office at Barkerville next spring. The warehouse of Mr J Harper was broken into and about 400 lbs of flour abstracted therefrom. John Martin's cabin, on Grouse creek, caught fire. The roof and ceiling were destroyed, but the rest of the cabin was saved. The Rev Mr Derrick is delivering a course of lectures upon 'Scriptural History,' which appear to be very popular.

MASONIC.—The officers of Lodge Mount Harmon, No 491 (Burrard Inlet), for the present Masonic year, have been installed, and are as follows: J McDonald RWM, P W Swett DM, J Van Bramer SM, G W Hayes SW, J H Weir JV, G W Cole Tr, Thos Cooper Sec, J O Hughes S D, H Wharton J D, C M Chambers Organist, Wm Burdin LG, George Black Tyler. After the installation the retiring Master (Bro C M Chambers) was presented by the incoming Master, on behalf of the members of the Lodge with an elegant Past Master's Jewel, as a token of their esteem and appreciation of his services for the past year, which was suitably acknowledged by the deserving recipient.

TERRIBLE ACCIDENT.—A frightful accident occurred at St John's Newfoundland, on 'All Saint's Day.' The bell tower of the Roman Catholic Cathedral was undergoing repairs, and as the congregation were leaving a piece of timber fell from the staging, striking two women, causing, killing both of them instantly. The brains of one woman were scattered across the street. The other woman had her head completely split open, and the handle of her umbrella was driven clear through her neck.

ROAD STEAMERS.—We understand that yesterday's mail brought down sheaves of petitions from the mainland in favor of the introduction of Thomson's Patent Road Steamers. The *Cariboo Sentinel* of the 23rd ult has a leading article strongly supporting the granting of an exclusive privilege to use these steamers for a reasonable period. The Mainland would appear to be very earnest in its desire for their introduction. Who opposes?

DAMAGING THE CABLE.—Yesterday a number of Hyak Indians commenced to strip the shield wires from the cable connecting San Juan and Lopez Islands at the San Juan end. The operator at San Juan saw the fellows and attempted to take the wires from them when they drew their knives and drove him away. They then paddled off in the direction of Sehome. After their departure the damage was repaired. It is probable the Siwash—ignorance being bliss—supposed the cable to be of no value.

FROM NANAIMO.—The steamer Emily Harris arrived from Nanaimo yesterday morning with a cargo of salmon.

FROM NEW WESTMINSTER.—The steamer Otter, Capt Lewis, arrived from New Westminster at 4 1/2 o'clock yesterday afternoon bringing Messrs E Dewdney, J C Bedy, M D Oppenheimer, A Lewin, H Smith, Mr Haynes, SM of Similkameen, Mr Yowel Mr Toomy, Mr Henly and Barnard's Cariboo Express and Mail with letters and \$30,000 in gold.

THE BOOT-FUL HEATHEN CHIEF.—A heathen Chinese arrested last night on Johnson street for stealing a pair of boots. The pedal encasers were found in his hands. He was seized by the tail (sic) and dragged off to prison. Another strong argument in favor of the imposition of Banister's tax.

KOOTENAY.—Mr Haynes, the Magistrate at Osoyoos Lake, who arrived yesterday, reports a number of Chinese wintering at the diggings. Work was suspended. There was much snow on the mountains between Hope and Similkameen, but little in the valleys.

DEATH AT LYTON.—A man named Jas Barke died a few days ago of lung disease at Lyton.

FOR THE INLET.—The steam Grappler towed the bark Fiezel up to Burrard Inlet yesterday to load lumber at the Hastings Mill.

NEW ENTERPRISE FOR THE SOUND.—Mr. H. E. Levy, an old and well known resident of this city, has recently brought from the East a new and complete apparatus for the manufacture of soda water, syrups, cordials, etc., which he intends to erect at Seattle, to supply the Puget Sounders with the delightful and healthy beverages during the next and, we trust, many succeeding summers. At present, we believe, there is no similar establishment on Puget Sound, and Mr Levy will doubtless be hailed as a welcome addition to the population.

STATE OF GERMANY.—A letter received in town from Berlin states that money is plentiful, labor scarce and high, and manufactures are in full blast. Every abode below 43 has been marched off to the French frontier under the last call for the landwehr, and the whole country is filled with cripples, weeping wives, mothers and children. Every wife whose husband is in the landwehr receives two Prussian dollars—equal to \$1 50 of our money—during his absence!

PASSENGERS PER PACIFIC.—The following passengers were booked yesterday for San Francisco: Hon J W Trutch and wife, C Strauss, Jas Wm London, W W Miller, Mrs D Sires, Col O C Lane, Mrs M Moore, H Boyd, Mrs A Lawrence, Capt J Rayner, E Marvin, J A Doyle, Thos Mason, C E P Wood, Wm C Pigott, P Moore and five children, C B Shaddock, D Owen.

THE TESTIMONIAL FUND.—According to late Canadian exchanges, the Testimonial Fund had reached \$80,000, although encountering bitter opposition at the hands of a section of the Ontario Reform party. It was intended by the friends of Sir John that the fund should amount to \$150,000 and there is every prospect of that figure being reached.

LECTURE ON GOLD.—Gold has always an attraction for those who have it and for those who have it not. Mr Cadell proposes to lecture to-night upon the *oro* at the St George and will give a history of the precious metal from the days of King Solomon down to the present era.

A BRAVE LADY.—Mrs D Oppenheimer, who was asleep in the Mansion House when it took fire, saved the lives of two children who were sleeping in another room. In performing this act of heroism Mrs Oppenheimer lost her entire wardrobe and jewelry.

MYSTERIOUS.—An exchange has a news item stating that thirty-three girls of the graduating class of the Vassar Female College 'have been made bachelors.' The process by which this interesting metamorphosis was accomplished is not described.

NO ICE.—The river between Yale and New Westminster is clear of ice. Passengers by the express canoe left Yale at 7 o'clock on Monday morning and reached New Westminster at 5 o'clock yesterday morning.

STOCK.—Reports received yesterday represent the stock at Okanagan, Similkameen, Alkali, Williams and other lakes as in excellent condition. The loss thus far has been trivial.

ROYAL GIFT.—Her Majesty has purchased the estate at Halifax, Nova Scotia, which was occupied by the late Duke of Kent, and presented it to the city as a public park forever.

THE REV. MR. FAIRCHILD, of Olympia, arrived by the steamer Isabel yesterday morning, and will preach in the Wesleyan Church to-morrow, taking part in the missionary meeting on Monday evening.

WEEKLY COLONIST.—A large extra edition of the WEEKLY COLONIST has been worked off and copies may be had at the Office, at Hibben & Co's, and at D Spencer's, Government street. Price 12 1/2 cents.

THE PACIFIC CAPT Stothard, will sail at 4 o'clock this afternoon for San Francisco.

THE H.B. Co's bark Prince of Wales will be due about the 20th inst.

THE BARK Golden Age, Capt Thomas, will sail to-day or to-morrow for Callao.

THE PROCLIVITIES FOR SENSATION.—It is astonishing that in this modern, and supposed to be more refined age, that a custom still exists which originated in the Fiftenth Century from an accidental circumstance of Mails and Bachelors among themselves on the 14th of February, by drawing lottery-wise, a name to be taken seriously or in joke, to represent their future wives or husbands. This custom modernized, exhibits the same tendency, in the form of Valentines. Some chaste in appearance and sentiment, and others grotesque and calculated to please or offend. E. N. Hibben & Co are prepared for the coming St. Valentine's Day in the modern and most pleasing form.

A REQUISITE SUPPLIED.—To avoid the necessity which has heretofore existed of sending to San Francisco to have finished book-binding, Robert Williams has by study, application and practice in the largest establishments in California, perfected himself in the art of bookbinding and is supplied with all the necessary material and machinery. Always to be found at T N Hibben & Co's.

A. GILMORE, MERCHANT TAILOR, and General Outfitter, has removed his place of business to the store adjoining the Colonial Hotel and opposite the Colonist Office, on Government street, fourth door from Yates, where he proposes to give his old friends and new customers a chance on the principle of quick sales and small profits.

HEALTH HAS A BEAUTY OF ITS OWN. No eruptions, sores or discolorations disfigure or annoy the man or woman whose stomach, liver and bowels do their duty thoroughly. To compel them to their work, render it impossible for them to do it in a slovenly, imperfect way, it is only necessary to take a few doses of 'Dr. Walker's Vinegar Bitters.' This potent vegetable specific renovates every weakened organ and controls every disordered function.

REMEMBER THE FATE OF ABRAHAM.—Fred Payne, Tonsorial Artist, Shaving 12 1/2 cents Hair Cutting 25 cents, Shampooing 25 cents That Original Cheap Shaving Shop stand on the sunny side of Johnson street.

CHRISTMAS, 1870.—The show of fancy goods for the season will commence on Saturday next, the 17th inst, at London House, Government street.

FELL'S COFFEE, superior to any other manufactured on the Coast, may be obtained of all respectable dealers throughout the Colony.

By Electric Telegraph.

SPECIAL TO THE DAILY BRITISH COLONIST.

LAST NIGHT'S DISPATCHES.

Europe.

LONDON, Feb 9.—Thiers has been elected to the National Assembly by an overwhelming majority.

VERSAILLES, Feb 8.—Gen Von Tierskow reports his command now besieging Belfort to have carried some of the detached forts.

BONDAUX, Feb 8.—In the elections for the Assembly the Republicans have been successful in Paris and Orlans and in the departments of Ardennes, Marne, Loire, Ariège, Indre and Perche. Conservative candidates have been elected from Poitiers and Montauban, and in the departments of Maine, Garonne. Candidates of the Liberal Union have been generally elected throughout France wherever put in nomination. The Republican majority is large.

BRUSSELS, Feb 8.—The military chest of the French army of the East containing 1,500,000 francs has been surrendered to the Swiss government.

LONDON, Feb 9.—Although reports of the terms demanded by Prussia as the conditions of Peace are destitute of authority, there are good reasons for believing them correct. The following are the conditions as reported: The cession of Alsace and 60 Prussian square miles of Lorraine including Metz, and one and one-half million francs as expenses of war, 30,000,000 francs for captured Prussian ships, 40,000,000 francs for Prussians expelled from France, and a few millions on limited time for crippled and maimed Prussians and orphans made so by the war.

Eastern States.

WASHINGTON, Feb 9.—The Navy Department has received the following dispatch from the telegraph operator at Havana: dated to-day. I cannot trace the report of the loss of the Tennessee to any reliable source and believe it to be a hoax. Our papers have not attended to the rumors.

Key West advices state that no news had been received there of the Tennessee being in trouble.

California.

SAN FRANCISCO, Feb 9.—Flour—Uchabang. No sales.

Wheat—Quiet at \$2 20 @ 2 45 per 100 lbs. Barley—Light enquiry at \$1 37 @ 1 45 at close. 1000 sbs brewing at \$1 42.

Oats—Light jobbing sales at \$1 45 @ 1 75. Arrived—Bk Milan Pt Gambol, Skute Alida Aulwerp.

Sailed—Schr J H Roscoe Pt Gambol. The reduction of sailors wages on lumber vessels from \$30 to \$25 per month by Meigs & Gawley and some other heavy dealers caused considerable excitement among the sailors, and a crew who had been shipped at the reduced rates were driven off and beaten by the disaffected. The police being on duty along the city front all day and night, all appeared quiet.

It is officially announced that the second class of emigrant train fare between Omaha and San Francisco has been reduced from \$72 to \$50. Connecting lines to the East will sell tickets at that rate good for thirty days.

EXCLUSIVE

To the British Colonist

Second Dispatch.

THE HIGH COMMISSION!

The United States Accepts Granville's Proposition!

THE CORRESPONDENCE!

Europe.

LONDON, Feb 8.—The French provincial press generally urge peace.

Hendie, Jules Favre's Secretary, has been appointed Prefect of the Department of the Nord. On assuming the office at Lille he issued a Proclamation insisting on the liberty of all parties to vote for whom they pleased at the election, and declaring the nation to be steeped in misfortune, which can only be regenerated by liberty.

Provisions in Paris are scarce. There is not sufficient flour to last until the eighth. A correspondent writes from Versailles that the French restrictions are contemplated by German Commanders in consequence of the influx of Parisians into Versailles.

The German army will enter Paris on the 18th inst.

LONDON, Feb 9.—A dispatch from Havre says Thiers, Quarries and Cordiers are chosen to the National Assembly for the Lower Seine. The Republicans will carry Havre and Lille.

Paris, Feb 7.—Favre has written a letter of gratitude to the Lord Mayor of London.

There is great distress in Paris, but continued tranquility.

Eastern States.

SAN FRANCISCO, Feb 9.—The following is the continuation of the Granville-Fish correspondence.

WASHINGTON, Jan 28.

Sir—I acknowledge the receipt of your note of the 26th and have laid it before the President who shares with Her Majesty's Government in appreciating the importance of friendly understanding between the two Governments. With reference to the subjects specially suggested to be taken into consideration by the proposed Joint Commission, he fully recognizes the friendly spirit which prompted the proposal. He is, however, of opinion that without the adjustment of the class questions not alluded to in your note, the proposed High Commission would fail to establish permanent relations and sincere and substantial friendship between the two Governments, which in common with Her Majesty's Government he desires should prevail. He thinks that the removal of differences which arose during the rebellion, and which have existed since, growing out of acts committed by several vessels which have given rise to claims known as 'Alabama Claims,' will also be essential to the restoration of cordial and amicable relations between the two Governments, and desires me to say that should Her Majesty's Government accept this view of this matter that this subject may also be treated by the Commission, and may thus be put in a final way of settlement. This Government will, with pleasure, appoint High Commissioners on the part of the United States to meet those who may be appointed on behalf of Her Majesty's Government, and will spare no efforts to secure at the earliest moment a just and amicable arrangement of all questions which now, unfortunately, stand in the way of an entire and enduring friendship between the two nations.

I have the honor to be, with highest consideration, sir, your obedient servant,

(Signed) HAMILTON FISH.

To Edward Thornton, Esq.

WASHINGTON, Feb 1. Sir—With reference to that part which you state that the President thinks the removal of the differences which arose during the rebellion in the United States, which have existed since then, growing out of acts committed by several vessels which have given rise to claims generally known as 'Alabama Claims,' will also be essential to the restoration of cordial relations between the two Governments, I have submitted to Earl Granville the opinions expressed by the President of the United States as regards friendship, which I beg you to believe he fully appreciates. I have been advised by his lordship to state that it would give Her Majesty's Government satisfaction if the Alabama Claims were submitted to consideration. The Government have proposed that questions relating to the British Possessions in North America should be discussed, provided that all other claims both British and American should be discussed by the same High Commission, by which Her Majesty's subjects and citizens in the United States arising out of acts committed during the civil war in this country, and similarly referred to the same Commission. Expressions made use of in the name of the President in your above note with regard to the Alabama claims convince me that the government of the United States will consider it of importance that these causes of dispute between the two countries should also be done away with, and that you will enable me to convey to my government the assent of the President.

(Signed) EDWARD THORNTON.

To H Fish, Esq.

WASHINGTON, Feb 3.

Sir—I have laid your note before the President and he has directed me to express satisfaction in receiving intelligence that Earl Granville has authorized you to state that Her Majesty's government has accepted the views of this government as to the disposition to be made of the so-called Alabama claims. He also desires me to say with reference to the remarks made in your notes that if there be other and further claims of British subjects or American citizens growing out of acts committed during the recent civil war in this country, he assents to the proposition to their reference to the same high commission, but he suggests that this high commission shall consider only such cases of the description as may be presented by the government's respective claimants at an early day to be agreed upon by commission.

(Signed) HAMILTON FISH.

To Edward Thornton, Esq.

Third Dispatch.

THE ROYAL COMMISSIONERS!

Sir John A. Macdonald, Sir John Rose, Earl de Grey and Mr Thornton to Represent Great Britain!

THE QUEEN OPENS PARLIAMENT IN PERSON!

DISRAELI AND GLADSTONE ON THE ADDRESS!

Europe.

LONDON, Feb 9.—The *World's* cable says the English members of the Joint Commission to settle the Alabama claims and the fishery question are Earl de Grey, Sir John A. Macdonald, Mr Thornton and Sir John Rose. Earl de Grey sails for Washington to-morrow as President of the commission.

The Queen opened the session of Parliament in person. Disraeli made some remarks in the course of which he criticized the policy of the Government and advised an armed neutrality and a final pacification which would exclude all the germs of hostility. He lamented the inaction of government last July, when it was able to influence the belligerents. The value of its efforts to procure the withdrawal of Prince Leopold from the candidacy of the Spanish throne could not be admitted, but it was then possible for government to have withheld France from war by an armed neutrality and by employing its acknowledged influence with Prussia to induce her to forbear. Disraeli is equally severe in his comments on the course which England was taking in the Black Sea question, referring to American questions he denounced the hostile attitude of Senator Sumner and others towards England, which was unlike the attitude assumed towards other Powers, and recommended that it should be met with forbearance and contempt. Yet a feeling might be aroused which could not be easily allayed. Therefore he hoped for a renewal of negotiations for the settlement of all questions between England and America. It is the mean time in view of the relations of England with foreign countries he opposed the proposed increase in the military forces of the Kingdom.

Gladstone made an able speech in support of the address and replied to the criticisms of Disraeli. He denied that there was any need for an armed neutrality last year. To advise Prussia against the Hohenzollern candidacy would be going to the extreme limit of international right of interference. The neutralization of the Black Sea had lost its importance to England. Since the Crimean war its maintenance had been abandoned by France. He declared that England's true policy was non-intervention abroad, and the study of domestic questions and the observation of neutrality and its obligations. He begged the House would not fetter the Government in its liberty of action or doubt, for a moment its aim to secure peace with the honor and safety of the country assured.

The Address was agreed to and the House adjourned.

California.

SAN FRANCISCO, Feb 9.—Weather warm and clear.

Vessels which sailed yesterday for Yokohama carried ten thousand fish-bribs, being the first shipment of this article from California to Japan.

In consequence of the destruction of the mail by burning, at a recent railway accident in New York State, the steamer Moses Taylor will not for Honolulu to connect with the Australian steamer until the 16th.

SAN FRANCISCO, Feb 10.—The Dion-Deery match last night surprised everyone by its result. At the outset Dion played very badly, and in his 14th innings Dion had made 61 to Deery's 8, thus getting back his who's discount and 3 points over. The batting then ran 2 to 1 against Deery. Later in the game he picked up rapidly, while Dion fell off. In the 57th innings Deery scored 83, and from that time out had his own way, winning the game at the 92nd innings, being 550 against Dion's 441, having 109 ahead without the 50 allowed as discount. At the conclusion of the match Deery was escorted from the hall by his friends amid great excitement.

CARIBOO MINING NEWS!

QUEENSWILL, Feb 10.—[From the Cariboo Sentinel of Feb 4th.] William creek—The Ballarat co last week took out 50 oz, For st Rose 56 oz.

Grouse creek—The Tallman co last week washed out 35 oz, and the appearance of their ground continues to improve. The Heron co, have struck a very good prospect after running back a considerable distance from where their pay gave out. They feel sure that they have struck the long sought for Old Lead again.

Stout gulch—The Jenkins co, took out 42 oz, for last week's work.

Lowree creek—The Brown co, washed up last week 29 oz, the Lightning co, 59 oz, the Spence co, 110 oz, Eldorado co, 11 oz. North Wales co, expect to break through every day, as the water increases rapidly. The Vancouver co, are progressing favorably. The Van Winkle co, will have their machinery started again during this week. The Clark co's machinery did not work well and is again under repairs.

Van Winkle creek—The McCormick co have washed \$4 from 24 buckets, and feel certain that they have found the Old Lead. They have commenced a tunnel from the creek.

Weather clear. Ther. 30° below zero.

Fifth Dispatch.

Eastern States.

NEW YORK, Feb 10.—Up to this hour nothing has been heard of the steamer Tennessee, and apprehensions are becoming serious.

Oregon.

PORTLAND, Feb 10.—Arrived last night—Propeller California from Victoria and Puget Sound.

RELIEF AT LAST!

"I have suffered much from dizziness or vertigo. Three bottles of Bristol's Sarsaparilla and two pills of Pills entirely cured me."

R. T. COLEMAN, Idaho City.

A CLEAN, SMOOTH SKIN.

"My blood and humors were in a very bad state. Several weeks' use of Bristol's Sarsaparilla and Pills made me a new man, with as clean and smooth a skin as any one could have."

J. SMITH, Marysville.
